TESTING & WORKFLOW

Karma / Jasmine | Git | GitHub Actions CI | semantic-release | Jira | Agile sprints

GAMES

Phaser 2 | HTML5 games | Flash

DESIGN & E-LEARNING

Articulate Storyline | After Effects | Adobe Animate | Photoshop | Illustrator | Canva

PROFILE

Frontend and web developer with 15+ years building interactive products, from Flash ads and HTML5 games to modern Angular and Vue.js applications. Led an AngularJS-to-Angular 12+ migration at Accenture and has shipped Phaser-based slot games and Vue.js casino sites. Currently building a Next.js and React player site and a Vue.js and PHP admin CMS for a multi-brand white-label casino platform. Brings a designer's eye to responsive, user-focused interfaces.

EXPERIENCE

Senior Web Developer

2024 – Present

GlobalNet Solutions Group, Inc.

- Build features for the DWIN white-label casino platform across the player site and admin CMS, in sprints with GitHub, Jira and CI.
- Built slot games with Phaser 2 and responsive casino websites with Vue.js and Tailwind CSS.
- Fix production and sprint bugs, documenting root cause and solution in Jira and writing clear PR documentation.

KEY PROJECT

DWIN Web — Next.js white-label casino platform

Next.js | React | TypeScript | Tailwind CSS | React Query

- Part of the team migrating the multi-brand player site (DGC, PrizeWin) from Vue 3 to Next.js, React and TypeScript.
- Worked on the cashier and deposit pages, promo panels, responsible gaming tools and KYC screens connected to the DW Platform API.
- Contributed to casino game launch, SEO-friendly game URLs and page layout-shift (CLS) fixes.
- Supported English, Tagalog and Bisaya; shipped through GitHub Actions CI and automated semantic-release versioning.

KEY PROJECT

DWIN CMS — the platform's back-office

Vue.js | PHP | REST API

- Worked on a Vue.js admin app with a PHP REST API for managing games, brands, promos and players.
- Contributed to role-based access control: Super Admin, custom roles and user permissions.
- Worked on the operations dashboard showing player activity, provider inventory and catalogue health.
- Contributed to secure image uploads with file type checks and size limits; automated releases with semantic-release.

EARLIER ROLES

2017 – 2018
E-Learning Specialist
Personiv · Storyline modules

2016 – 2017
E-Learning Developer
ACP Computer Training School Pte Ltd · Course content
